

[AI-03] Mandatory Disclosure

The initial mindmap structure, historical defect references, and physical product test cases were initially generated by Claude Sonnet 4.6, Gemini 3.5 Flash, and Gemini 3.1 Pro; I reviewed and modified the ISTQB role definitions, corrected the hallucinated defect details, and added 3 advanced electrical edge cases for the SUNHOUSE SHD2306 hair dryer; the failure analysis, physical test execution, and bug logging on GitHub Issues were written entirely by me. The detailed AI Audit Report is attached as Appendix A. I confirm I did not use AI to generate any artifact listed in the prohibited category below.
